

**ClinicalKey Student** è la piattaforma di Elsevier per la formazione medica che include circa 265 libri di testo di medicina, anatomia, fisiologia di più di 40 specialità biomediche. La piattaforma contiene anche oltre 2,000 video, più di 150,000 immagini e 1,500 indici ad accesso rapido. Tutti i contenuti sono ricercabili attraverso un motore di ricerca integrato.

Alcuni dei testi più famosi inclusi in ClinicalKey Studenti sono il Gray's Anatomy for Students, Netter Atlas of Human Anatomy, Goldman-Cecil Medicine, Abbas Cellular and Molecular Immunology, Guyton & Hall Textbook of Medical Physiology e molti altri.

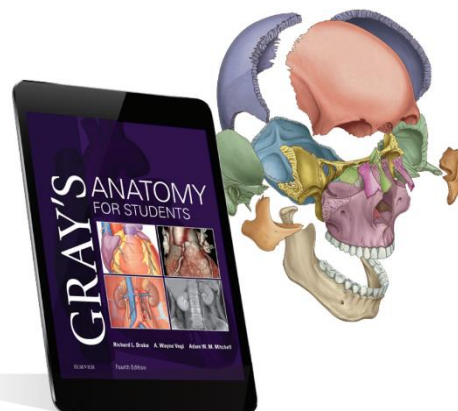

ClinicalKey Student è pensata per essere una piattaforma educativa interattiva con strumenti dedicati allo studio, incluso la possibilità di testare le proprie conoscenze attraverso più di 6000 domande teoriche e pratiche e beneficiare dell'app **ClinicalKey Student Bookshelf** dove evidenziare i contenuti, creare flashcard, creare annotazioni condivisibili con altri utenti e accedere ai testi offline.

I docenti possono beneficiare della possibilità di creazione di presentazioni a partire da immagini disponibili sulla piattaforma. Le oltre 150,000 immagini digitalizzate ad alta risoluzione sono infatti autorizzate da copyright e ri-utilizzabili. In aggiunta, ClinicalKey Student offre la possibilità di condividere contenuti con i propri studenti attraverso i link di condivisione disponibili in ogni capitolo e sezione di ciascun testo.

## Accesso

Per accedere ai contenuti della piattaforma è necessario effettuare il login alla pagina [www.clinicalkey.com/student/login](http://www.clinicalkey.com/student/login) quando connessi alla rete internet istituzionale (in sede o da remoto tramite VPN o IP Proxy).

The screenshot shows the login interface for ClinicalKey Student. At the top, a lightbulb icon is followed by the text "Log in using your ClinicalKey, ScienceDirect, Scopus, or other Elsevier credentials." A red box highlights this text with the number "2" below it. Below this is the "Log In" section, which includes the text "\* All fields required". Underneath, it asks "New user? Register here" with a red box around the link and the number "1" to its right. The form contains fields for "Email Address \*" and "Password \*", both with red boxes around their respective labels. Below the password field is a "Forgot email and password?" link. There is a "Remember me" checkbox with the text "Not recommended on shared devices." below it. At the bottom of the form is a blue "Log in" button. To the right of the form is a "More Options" section with three links: "Redeem a Registration ID", "Log in via OpenAthens", and "Log in via your institution". A red box highlights the last link with the number "3" to its right.

La creazione di un profilo personale può essere completata al primo accesso selezionando “**Register here**” (1). Per chi sia già in possesso di un profilo Elsevier registrato su altre piattaforme come ScienceDirect, Scopus, Mendeley, Editorial Manager etc, le stesse credenziali sono utilizzabili anche per l’accesso a ClinicalKey Student (2).

Se la propria Università utilizza altre forme di autenticazione istituzionale, come ad esempio OpenAthens, è possibile utilizzare le stesse credenziali istituzionali anche per accedere a ClinicalKey Student selezionando l’opzione “Login via your institution” (3)

La creazione di un profilo personale consentirà anche l’utilizzo dello strumento interattivo ClinicalKey Bookshelf dove poter evidenziare testi, creare note, esportarle in OneNote o condividerle con altri utenti, attivare la funzione di audiolibro o consultare contenuti anche offline.

ClinicalKey Bookshelf è disponibile come piattaforma online una volta effettuato l’accesso al proprio profilo ClinicalKey Student o in alternativa come applicativo a sè stante disponibile gratuitamente sia per desktop e dispositivi mobili: [trova qui la versione da scaricare](#)

## ENGLISH VERSION

**ClinicalKey Student** is the medical learning platform from Elsevier with almost 265 textbooks in medicine, anatomy and more than 40 medical specialties. It also includes 2000+ videos, more than 150,000 pictures and over 1500 clinical summaries. The contents are all searchable through common search interface.

Some of the most famous titles included are Gray's Anatomy for Students, Netter Atlas of Human Anatomy, Goldman-Cecil Medicine, Abbas Cellular and Molecular Immunology, Guyton & Hall Textbook of Medical Physiology and many more.

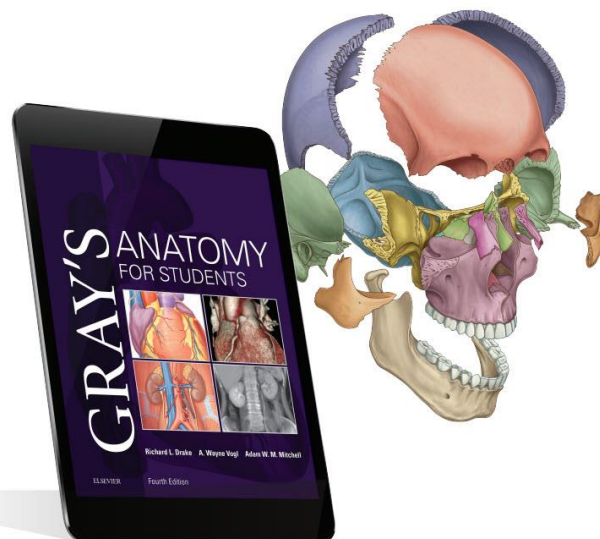

ClinicalKey Student is designed as an interactive educational platform for students that offers the possibility to test their knowledge by building and taking assessments with over 6000 questions and to use the **App ClinicalKey Student Bookshelf** where they will find a range of study tools, including the ability to highlight, create flashcards, make notes, share these with others and access the books offline.

Faculty will have the opportunity to use a built-in presentation tool allowing them to create power point presentations from images in the platform. The over 150,000 digitalized high-resolution images are all copyrighted for re-use. In addition, ClinicalKey Student also offers the possibility to share content with students via stable URLs available in chapters and sections of each textbook.

## Access

To ClinicalKey Student users will have to login at [www.clinicalkey.com/student/login](http://www.clinicalkey.com/student/login) while connected to the institutional network (on site or remotely via VPN or IP Proxy).

The screenshot shows the ClinicalKey Student login interface. At the top, a lightbulb icon is followed by the text "Log in using your ClinicalKey, ScienceDirect, Scopus, or other Elsevier credentials." This text is enclosed in a red box and labeled with a red "2". Below this is the "Log In" section, which includes the text "\* All fields required" and a link "New user? Register here" enclosed in a red box and labeled with a red "1". The "Log In" section contains two input fields: "Email Address \*" and "Password \*", both with asterisks indicating they are required. Below the password field is a "Forgot email and password?" link. There is also a "Remember me" checkbox with the text "Not recommended on shared devices." and a blue "Log in" button. To the right of the "Log In" section is the "More Options" section, which contains three links: "Redeem a Registration ID", "Log in via OpenAthens", and "Log in via your institution". The "Log in via your institution" link is enclosed in a red box and labeled with a red "3".

Users will be required to create an account at their first access by clicking the "Register here" link (1). Users already registered in other Elsevier products such as ScienceDirect, Scopus, Mendeley, Editorial Manager, etc. will be able to use the same credentials in ClinicalKey Student (2).

If your University makes use of federated access (e.g. OpenAthens), you can choose "Login via your institution" (3) at login page and use your already existing institutional credentials to log in.

A personal profile enables users to use the ClinicalKey Student Bookshelf with highlighting, note-making, and bookmarking functionality, share notes/highlighting, export notes to OneNote and read aloud books and access them offline.

The ClinicalKey Student Bookshelf is available online once logged on into the platform or as a standalone application for desktop and mobile devices. Here where it is available to download for free: [find here the best version to download](#)
