I'm not an institutional user of the Perugia University, can I access its libraries?

Anyone can request a registration for the University Library services as an "external user", submitting a request as specified in art. 2 of the Regulation of the Library services

<http://www.csb.unipg.it> → [regolamenti](#).

As an "external user" you can access the libraries to consult or photocopy printed materials, borrow a maximum of 2 books for 15 days, consult the databases, access to internet and print or save the results of your research. If you are a member of an institution or a user of a library which signed an agreement with CSB, you'll also have access to the Interlibrary Loan Service and to the Document Delivery Service.

I'm a user with Unipass Unipg: can I also access other libraries in this city, in addition to the university ones?

There are many libraries in this city, public and private. The university and the CBS have close cooperation agreements with some of them, to make library collections and electronic resources usable. This means that, as an Unipg user, you can also access the external libraries in agreement. You can find the list of these libraries, their descriptions and their rules for access on the page:

Please note that the Unipass APP also gives access to the students' self-managed study rooms:
